

## **BF-603 Proximity & Smart Card Reader**

### **Features**

- ❑ Compact design and elegant faceplate
- ❑ Audio and visual indications of LED and beep
- ❑ A choice of 3 colors (silver, light gray and dark gray)
- ❑ Potted (solid epoxy) electronics (tamper switch) protect against vandalism and harsh weather for indoor/outdoor design.
- ❑ Mounting on standard single gang electrical switch box for easy installation.
- ❑ Compatible with Wiegand 34 bits and RS485 format, or user format is available.
- ❑ Self-test on reader power-up to verify the setup configuration and initialize reader operation.

### **Specification**

- ❑ Active Distance: 5~15cm
- ❑ Transmit distance: 100M
- ❑ Time for verification: 300ms
- ❑ Frequency: 125KHZ
- ❑ Operation Voltage: DC 12V
- ❑ Power consume: 50mA❑static❑,150mA❑Dynamic❑
- ❑ Operation Temp.: -30❑~150❑
- ❑ Operation Humanity: 10%~90%
- ❑ ESD: +-2.5KV
- ❑ Size: 121 X 22 X 45.5 mm
